Vitalize Relax Plus

Rekreace a nízká zátěž

Ergänzungsfuttermittel für Pferde

Vitalize Relax Plus contains hydrothermally treated grains and is therefore optimally digestible. The oat-free and tasty composition is suitable both as the sole hard feed for horses and ponies and as a supplement to the cereals. Leisure horses in particular should be fed something that does not go straight to their head, but still represents a high-quality hard food meal. A calm, balanced but nevertheless willing horse is desired. The muesli contains all the important nutrients to keep a horse healthy and efficient in light work.
The addition of AO-Ferm™, a fermentation product of the Aspergillus oryzae fungus, has a prebiotic effect and serves to increase the digestibility of crude fibre and starch. The nutrients ingested in the feed can be better absorbed and used by the body. As a prebiotic, AO-Ferm™ is the food for living microorganisms in the horse's digestive tract. The growth and the multiplication of the good microbes in the intestine can be stimulated and an optimally utilised digestion of the nutrients can thus be guaranteed.
The addition of AO-Ferm™ relieves the digestive system in a targeted manner and supports its function. With constant feeding of Vitalize Relax Plus, the digestive process and metabolism can be sustainably supported and harmonised. The addition of magnesium ensures a balanced character and also supports supple and flexible muscles.

The benefits at a glance:

- oat-free, low in protein and energy
- particularly suitable for leisure horses
- with the prebiotically effective AO-Ferm™, which supports optimised nutrient absorption and more effective digestibility
- high digestibility due to hydrothermally treated grains and the addition of AO-Ferm™
- with the addition of magnesium for nerve strength and supple muscles
- complete supply of vitamins and minerals with high levels of zinc, copper & selenium

Doporučené dávkování:

Feeding recommendation:

light work: approx. 200 g per 100 kg body weight per day

With smaller quantities, we recommend adding a mineral supplement.

Složení: 28,3 % ječmen (vločkovaný), 23,2 % kukuřice (vločkovaná), 10,8 % ovesné otruby, 8,9 % pšeničné otruby, 6,9 % vojtěšková moučka, 6,3 % cukrovarské řízky, 4,6 % řepná melasa, 3,1 % kukuřice, 3,0 % uhličitan vápenatý, 1,7 % chlorid sodný, 1,3 % ječmen, 0,7 % dikalcium fosfát, 0,2 % oxid hořečnatý, 0,1 % Product from Aspergillus oryzae, high in protein
